VISION:

Photography is personalized art, and art deserves to be displayed.

My vision as a photographer is to create timeless pieces that someone will display in their home for years to come, and pass on to their loved ones as heirlooms.

Why choose bubbleshap photography?

1. Newborn Safety: I am AANPS- (American Association of Newborn Photography Safety) and APNPI- (Accredited Professional Newborn Photographers International) certified.

2. The Experience: From the reveal (see page 8) to the hand-delivery and installation of products, the service and experience I provide is unlike others.

3. Wall-art, albums & table-top displays: If you like displaying your photos, the range of products I offer is unique.
 4. Flexibility: With my À La Carte menu, your purchase is tailored precisely to your wishes, down to a single photo.
 5. Themes: I love themes, and gladly incorporate them in your session, artistically and free of extra charges.

The Bubblesnap Photography experience:

BubbleSnap Photography is a full-service boutique photography business. My goal is to offer not only an amazing session, but also quality products that last a lifetime.

STEP ONE - THE CONSULTATION

Once you schedule your session, we start planning everything from location (which may be your cozy home or a favorite park) to any theme or props that you may want. We also discuss the kind of products you are most interested in, and I am happy to share samples of my products.

Consultation may take place in person or over the phone.

STEP TWO - THE SESSION

The fun and magic happens here, when we capture your memories. My style is a mix of candid and posed, which makes for great wall-art.

STEP THREE - THE REVEAL This is seriously the best part!

Two weeks after your session, we get together to see a slideshow of your beautiful photographs. No need to hire a babysitter, since the reveal happens in the comfort of your own home. I bring a little snack or dessert for us to share while we gush over and enjoy your slideshow.

You will also get to see samples of my products, and ask any questions that you may have. The goal of the reveal is to finalize your order. To help make it stress-free, it is a good idea to take a look at all of my products and collections beforehand, so you have an idea of what might work best for you.

Digital files purchased are made available within 24 hours, while print products require 2-4 weeks.

The following pages describe my key products.

What to wear?

DO: Choose a color scheme based on where you'd like to hang your photos. For example, if you are planning on a living room wall display, and your living room is done in earth tones, choose colors that will coordinate.

DON'T: Match. Just complement each other.

- DO: Layer. Sweaters, scarves, jewelry, blazers layers create visual interest and add texture.
 DON'T: Overdo patterns. Plaids, polkadots, florals and stripes can be overwhelming when overdone, but mixing in a pattern here or there creates interest.
- DO: Pay attention to shoes. A pair of Nike sneakers mixed with cute boots and dress shoes can be an eyesore.DON'T: Wear logos. A big logo across a t-shirt shifts the focus away from the people and takes the eye right to the t-shirt.

DO: Stay comfortable! If you are not, it will show in the photos.DON'T: Overthink it! You want your family to look like your family; so, don't stress too much about the outfits.
